A History

Origins

The National Championships have reached their present state after many years of evolution. My earliest record is a copy of the results from 1976, which is headed "Fourth Annual Prep Schools' Inter-Area Athletics Meeting," so I suppose they 'officially' started in 1973, although meetings were held as early as 1969. They were originally held at Denstone, organised by Henry Parker, for Under 14 Boys only. Even then they encompassed all the recognised events, many of which were by no means as popular as they are today, although some schools still restrict throwing events to the cricket ball, or claim they can't afford hurdles or a high jump landing area. Eight Areas were represented then, from meetings mostly organised by Public Schools. Under 12s were admitted in 1975. By 1978 the Championships had moved to the West London Stadium at Wormwood Scrubbs, and they remained in or near London (for several years at the Military Stadium at Aldershot, and once in Crawley) for the next 12 years. Token girls events appeared in 1981, and eked their way in more fully from 1986. Henry Parker handed over the organisation to Caroline Neuff, and eventually a Committee was formed, of which John Walker was the first Chairman. In 1990 Ian Ritchie of Hurstpierpoint became the meeting organiser, and in 1991 the Championships moved to the Alexander Stadium in Birmingham, where it has remained except for the two years when the track was being relaid. David Aldred of the Blue Coat School in Edgbaston took over the organisation in 1992. Although Birmingham is a long way from London, it is closer to Liverpool, York and Edinburgh, and as easy to reach from Cornwall and Bristol. It is also cheaper than an equivalent stadium in the South East, which is not the least of our considerations. When possible the Championships are held on the Sunday nearest the end of June, but occasionally we are shifted to the following Monday if organisations with more status than we want to book the stadium.

The Areas

The Area meetings have assembled themselves over the years, beginning with those organised by public schools for local prep schools (eg Denstone - 1962, Oundle, Hurstpierpoint) and later by prep schools themselves (eg Dragon - 1966) where there were too many of them or it was too far to travel to attend a public school meeting. The number of schools attending each varies from 5 to 35, but overall involve more than 3000 children from more than 400 schools. Participation at these meetings is by application and invitation, and while some are exclusively IAPS, others involve other prep schools, such as ISA members, and the junior departments of public schools. To try to maintain the prep school ethos of the national meeting it has been agreed that the National Championships shall only include IAPS schools, plus a rare selection of others by invitation - some who have traditionally been part of the Championships for years, and a few others who have no pupils older than 13. Only winners and second placed athletes at the Area events can qualify for the National Championships.

Tables

Most of this document is made up of lists of records and results from the meetings. Nearly all the data have been extracted from the published lists of results and records, with reference to entry forms and even actual results slips whenever there are discrepancies, which occurs quite a lot. I am very grateful to Richard Corden for providing me with a Compendium of the first three at every Championships between 1978 and 1995, although it does not give initials, and is at variance with the Programmes/Results sheets from time to time. Entries without initials for those years in the following pages are mostly thanks to this document, but I have silently amended its discrepancies when more contemporaneous evidence is available. I am also grateful to Ian Ritchie, who seems to have checked every entry against his own records, and made a number of corrections. One idiosyncrasy: where a winner of the final recorded a faster time in the heats, their heat time is recorded here. Where a loser recorded a faster time than the winner in their heat, they are not recorded unless they achieved a record.

It cannot be emphasised too strongly that this is still an incomplete account of the Championships, and I would be extremely grateful to anybody who can supply programmes or results/records sheets from the missing years, particularly for early years.

Please get in touch at hughfarey@hotmail.com if you think you can help.

(a) I have no results for this. The Programme lists Wilson as a (G), but no Wood.

Subsequent lists of records (until 1996) list Wood. Was Wilson a Guest because he was too old?

(b) From the Compendium. The Programme gives both him and Hymatt-Smith, Daveties (L)

UNDER 12	Javelin (400g)	37.67	2007	O. Bradfield	Gresham's (15)	37.67

(a) I have no results for this. The Programme lists Wilson as a (G), but no Wood.

Subsequent lists of records (until 1996) list Wood. Was Wilson a Guest because he was too old?

If so, the record would be 43.16, by R. Clowes, of Queens (21) in 2006

(b) 26.8 in later lists. I can't confirm original result.
